Rt. 12, Frederick, Md. 21701
9/6/75

Dear Mr. Barham,

I have some knowledge of Annie Patterson, have not seen all her files, can understand that she might have been somehow privy to something, but from what I know am inclined to dismiss it. If you have copies to ~~spare~~ spare that I might read at some time in the future I'd do this.

It seems a little sick.

What I recall seems to have been alleged to relate to MLK.

There is much confusion over what is still withheld. I could not answer the question in a year. I keep going for it, get much, sue for some and when I can I publish what I get.

I hope to have another book out soon dealing with aspects. We'll let you know when it happens.

If you mean the name of the hand or hands on the "smoking gun" I believe no. If you mean evidence on the crime, it is the new book above.

Best,
